Subject: Notice to Comply for Fuel Leak Case No. RO0002509 and Geotracker Global ID T0600164939, Thanh's Autobody Repair, 901 77th Avenue, Oakland, CA 94621

Dear Mr. Shaw and Mr. Sawhney:

Alameda County Environmental Health (ACEH) staff has reviewed the fuel leak case file for the above referenced site. In correspondence dated November 11, 2008, ACEH approved the proposed scope of work for site remediation in the report entitled, "*Soil Vapor Survey and Remediation Pilot Test Work Plan*," dated October 3, 2008. The Work Plan, which was prepared on your behalf by P&D Environmental, Inc., presented plans for soil vapor sampling and conducting a pilot test for dual phase extraction and air sparging. ACEH requested that the proposed scope of work be implemented and that a technical report with the results be submitted by March 20, 2009. To date, this work has not been implemented and no report has been received.

In correspondence dated July 24, 2009, ACEH requested that semi-annual groundwater monitoring be implemented for the site. The most recent groundwater monitoring report in ACEH files is dated June 17, 2009. Groundwater monitoring appears to have been suspended since June 2009.

We request that you comply with our directives to implement the scope of work proposed in the document entitled, "*Soil Vapor Survey and Remediation Pilot Test Work Plan*," dated October 3, 2008. **If we do not receive a status report indicating that the proposed soil vapor sampling and pilot test has been implemented by December 8, 2010, a Notice of Violation will be issued. Upon issuance of the Notice of Violation, the case may be referred to the Alameda County District Attorney's office for enforcement action.** We also request that you resume groundwater monitoring at a quarterly or greater frequency as required to monitor the proposed pilot test. We request that you implement the proposed work and send us the reports requested below.

TECHNICAL REPORT REQUEST

Please submit technical reports to Alameda County Environmental Health (Attention: Jerry Wickham), according to the following schedule:

Responsible Party(ies) Legal Requirements/Obligations

REPORT REQUESTS

These reports are being requested pursuant to California Health and Safety Code Section 25296.10. 23 CCR Sections 2652 through 2654, and 2721 through 2728 outline the responsibilities of a responsible party in response to an unauthorized release from a petroleum UST system, and require your compliance with this request.

ELECTRONIC SUBMITTAL OF REPORTS

ACEH's Environmental Cleanup Oversight Programs (LOP and SLIC) require submission of reports in electronic form. The electronic copy replaces paper copies and is expected to be used for all public information requests, regulatory review, and compliance/enforcement activities. Instructions for submission of electronic documents to the Alameda County Environmental Cleanup Oversight Program FTP site are provided on the attached "Electronic Report Upload Instructions." Submission of reports to the Alameda County FTP site is an addition to existing requirements for electronic submittal of information to the State Water Resources Control Board (SWRCB) GeoTracker website. In September 2004, the SWRCB adopted regulations that require electronic submittal of information for all groundwater cleanup programs. For several years, responsible parties for cleanup of leaks from underground storage tanks (USTs) have been required to submit groundwater analytical data, surveyed locations of monitoring wells, and [other](#) data to the GeoTracker database over the Internet. Beginning July 1, 2005, these same reporting requirements were added to Spills, Leaks, Investigations, and Cleanup (SLIC) sites. Beginning July 1, 2005, electronic submittal of a complete copy of all reports for all sites is required in GeoTracker (in PDF format). Please visit the SWRCB website for more information on these requirements (http://www.swrcb.ca.gov/ust/electronic_submittal/report_rqmts.shtml).

PERJURY STATEMENT

All work plans, technical reports, or technical documents submitted to ACEH must be accompanied by a cover letter from the responsible party that states, at a minimum, the following: "I declare, under penalty of perjury, that the information and/or recommendations contained in the attached document or report is true and correct to the best of my knowledge." This letter must be signed by an officer or legally authorized representative of your company. Please include a cover letter satisfying these requirements with all future reports and technical documents submitted for this fuel leak case.

PROFESSIONAL CERTIFICATION & CONCLUSIONS/RECOMMENDATIONS

The California Business and Professions Code (Sections 6735, 6835, and 7835.1) requires that work plans and technical or implementation reports containing geologic or engineering evaluations and/or judgments be performed under the direction of an appropriately registered or certified professional. For your submittal to be considered a valid technical report, you are to present site specific data, data interpretations, and recommendations prepared by an appropriately licensed professional and include the professional registration stamp, signature, and statement of professional certification. Please ensure all that all technical reports submitted for this fuel leak case meet this requirement.

UNDERGROUND STORAGE TANK CLEANUP FUND

Please note that delays in investigation, later reports, or enforcement actions may result in your becoming ineligible to receive grant money from the state's Underground Storage Tank Cleanup Fund (Senate Bill 2004) to reimburse you for the cost of cleanup.

AGENCY OVERSIGHT

If it appears as though significant delays are occurring or reports are not submitted as requested, we will consider referring your case to the Regional Board or other appropriate agency, including the County District Attorney, for possible enforcement actions. California Health and Safety Code, Section 25299.76 authorizes enforcement including administrative action or monetary penalties of up to \$10,000 per day for each day of violation.
