RE: Fuel Leak Case No. RO0002513

Good morning, Mr. Plunkett,

Lat summer I submitted a report on paper which you converted to electronic for me. I had heard nothing since then and assumed that we were through with the process. I am now in receipt of a letter from you dated July 24, 2009 indicating, I think, that we have more to do. I am not at all sophisticated in these matters and have a great deal of difficulty understanding and following the type of government policies and regulations such as the ones related to the small tank that were removed from the property my late father sold several years ago.

I will give you a call, hopefully tomorrow, to ask your assistance in getting closure on this matter.

Respectfully,

Jay Garfinkle
