Subject: RO#2515 Notification of work activities

Your work plan was received on December 6, 2011. Alameda County Environmental Health (ACEH) has a 60 day time period to review work plans which would be February 6, 2012. Should you perform the fieldwork, you would be doing so without concurrence from ACEH. If no comments arise from the review of the work plan, then proceeding with the fieldwork would not appear to have any significant repercussions. However, if comments to the work plan addendum are identified, modifications to the fieldwork may be necessary, which may require additional mobilizations and /or additional sample analyses, etc. Please note that the UST Cleanup Fund typically reimburses costs for a scope of work that has been approved by a regulatory agency. Since a review of the work plan cannot be completed in the time frame allotted and if the scope of work is implemented prior to regulatory approval, the UST Cleanup Fund may not fully reimburse all costs associated with the proposed scope of work. Please contact the UST Cleanup Fund to address cost reimbursement concerns.
Sincerely,

Barbara Jakub, P.G.
