Subject: Earthgrains Baking Company, Fuel Leak Case No. 2569

Hi George:

While reviewing the Performance Reports on GeoTracker, I noted that RO00002569, Earthgrains Baking Company is showing as NOT REVIEWED in 2013/2014 by Alameda County Environmental Health (ACEH) LOP.

I am confused as to why this is showing up on a performance metric report for ACEH as the CUF sent us a Draft Closure Denial Review Summary Report (attached) on 11/18/2013 stating they had reviewed ACEH's comments in our June 22, 2013 Closure Denial and our email comments to the CUF dated August 8, 2013 and were recommending closure of the case.

However a review of GeoTracker for this case does not reflect this recommendation by the CUF and therefore it appears that ACEH is not moving this case forward in accordance with our directive to the RP.

I am hoping you can provide clarification on how to rectify this matter.
