Global ID T06019729289, See the Doctor Transmission, 16611 14th Street, San Leandro, CA

Dear Mr. & Mrs. Keats:

Alameda County Department of Environmental Health (ACDEH) is the lead Agency overseeing the site investigation and remedial action under authority of Health & Safety Code (H&SC) §101480 with concurrence from the San Francisco Bay Regional Water Board (SFBRWB) and the Department of Toxic Substances Control (DTSC) for the subject case. Your case has been open since 2003 and has not been in compliance since 2004. In an effort to move all cases towards closure, (ACDEH) staff has reviewed your case, compared residual contamination concentrations at your site to the SFBRWB's revised Environmental Screening Levels (ESLs) dated March 2016, and determined that your case appears eligible for case closure.

According to Civil Code §850(q), the definition of a Responsible Party is "any person who is liable under state or local law for action in response to a release," and according to Civil Code §850(r), the definition of Site is "any parcel of commercial, industrial, or agricultural real property where a hazardous materials release has occurred." Based on your past and/or current association with the site, you are defined as a Responsible Party. ACDEH recovers remedial oversight fees from the Responsible Party under authority of H&SC §101490, and establishes a deposit/refund account as authorized in Alameda County Ordinance Code § 6.92.040L.

Your deposit/refund account is \$3,461.20 in arrears at this time. Prior to issuance of the "No Further Action" document, ACDEH requests that the outstanding balance in your deposit/refund account is paid. Please submit payment of \$3,461.20 to ACDEH Finance Department by **October 25, 2017**. Once the outstanding balance in your deposit/refund account is received, ACDEH will continue with the case closure process.

If you have any questions regarding your case, please contact Mark Detterman at (510) 567-6876 or mark.detterman@acgov.org or me at (510) 777-2478 or paresh.khatri@acgov.org.

Sincerely,

Paresh C. Khatri

Responsible Party(ies) Legal Requirements / Obligations

REPORT REQUESTS

These reports are being requested pursuant to California Health and Safety Code Section 25296.10. 23 CCR Sections 2652 through 2654, and 2721 through 2728 outline the responsibilities of a responsible party in response to an unauthorized release from a petroleum UST system, and require your compliance with this request.

ELECTRONIC SUBMITTAL OF REPORTS

Alameda County Department of Environmental Health's (ACDEH) Environmental Cleanup Oversight Programs, Local Oversight Program (LOP) and Site Cleanup Program (SCP) require submission of reports in electronic form. The electronic copy replaces paper copies and is expected to be used for all public information requests, regulatory review, and compliance/enforcement activities. Instructions for submission of electronic documents to the Alameda County Environmental Cleanup Oversight Program File Transfer Protocol (FTP) site are provided on the attached "Electronic Report Upload Instructions." Submission of reports to the Alameda County FTP site is an addition to existing requirements for electronic submittal of information to the State Water Resources Control Board (SWRCB) GeoTracker website. In September 2004, the SWRCB adopted regulations that require electronic submittal of information for all groundwater cleanup programs. For several years, responsible parties for cleanup of leaks from underground storage tanks (USTs) have been required to submit groundwater analytical data, surveyed locations of monitoring wells, and [other](#) data to the GeoTracker database over the Internet. Beginning July 1, 2005, these same reporting requirements were added to SCP sites. Beginning July 1, 2005, electronic submittal of a complete copy of all reports for all sites is required in GeoTracker (in PDF format). Please visit the SWRCB website (http://www.waterboards.ca.gov/water_issues/programs/ust/electronic_submittal/) for more information on these requirements.

ACKNOWLEDGEMENT STATEMENT

All work plans, technical reports, or technical documents submitted to ACDEH must be accompanied by a cover letter from the responsible party that states, at a minimum, the following: "I have read and acknowledge the content, recommendations and/or conclusions contained in the attached document or report submitted on my behalf to ACDEH's FTP server and the SWRCB's GeoTracker website." This letter must be signed by an officer or legally authorized representative of your company. Please include a cover letter satisfying these requirements with all future reports and technical documents submitted for this fuel leak case.

PROFESSIONAL CERTIFICATION & CONCLUSIONS/RECOMMENDATIONS

The California Business and Professions Code (Sections 6731, 6735, and 7835) requires that work plans and technical or implementation reports containing geologic or engineering evaluations and/or judgments be performed under the direction of an appropriately licensed or certified professional. For your submittal to be considered a valid technical report, you are to present site-specific data, data interpretations, and recommendations prepared by an appropriately licensed professional and include the professional registration stamp, signature, and statement of professional certification. Please ensure all that all technical reports submitted for this case meet this requirement. Additional information is available on the Board of Professional Engineers, Land Surveyors, and Geologists website at: <http://www.bpelsg.ca.gov/laws/index.shtml>.

UNDERGROUND STORAGE TANK CLEANUP FUND

Please note that delays in investigation, late reports, or enforcement actions may result in your becoming ineligible to receive grant money from the state's Underground Storage Tank Cleanup Fund (Senate Bill 2004) to reimburse you for the cost of cleanup.

AGENCY OVERSIGHT

If it appears as though significant delays are occurring or reports are not submitted as requested, we will consider referring your case to the Regional Board or other appropriate agency, including the County District Attorney, for possible enforcement actions. California Health and Safety Code, Section 25299.76 authorizes enforcement including administrative action or monetary penalties of up to \$10,000 per day for each day of violation.
