**RE: Update on Schedules for Remediation and for Additional Site Investigation at Young's Cleaners, 10700 MacArthur Blvd., Oakland**

**By Facsimile**

Dear Mr. Chan:

Since July 14, the date of our last correspondence about the subject site, I have received an update from our client concerning the schedule for implementing the proposed work. We plan to proceed with the work in approximately the following sequence:

- I will be on-site tomorrow, Thursday, July 20, 1995 with our contract driller to decommission well AMW-2. We will start the well destruction at 9:00 AM, and we should be finished within about two to three hours.
- Because of our client's need to re-schedule the cleanup, we will start excavating in front of Young's Cleaners on Thursday, August 3 instead of Monday, July 24.
- Next week, we will begin installing the additional wells proposed in our work plan and in the addendum that you received and approved last week. We will start the wells on Thursday, July 27, and we will continue into Tuesday or Wednesday of the following week until we have finished the wells.
