

# SITE INSPECTION R02584

---

SLIC Case R02584

649 Pacific Avenue, Alameda

Site Inspection by Jerry Wickham

September 11, 2008, 1:00 pm

Met with Eric Choi of Trinity Source Group at the Kelly Moore Paint Store. He was sampling the influent and effluent from the subslab depressurization system. Two locations with recovery trench were observed within the building. I also observed the blower in the attic and alarm system. During installation of piping in trench, may have encountered a drum? Need to follow up with Dan Birch.
