Subject: Fuel Leak Case No. RO0002585 and Geotracker Global ID T0600186816, Wente Winery, 5565 Tesla Road, Livermore, CA 94550 – Groundwater Monitoring Requirements

Dear Mr. Krimetz:

The purpose of this correspondence is to inform you of changes to groundwater monitoring requirements for all fuel leak cases in California. The California State Water Resources Control Board (State Water Board) has approved Resolution No. 2009-0042 (*Actions to Improve Administration of the UST Cleanup Fund and UST Cleanup Program*). Resolution No. 2009-0042 states that, "*Regional Water Board and LOP agencies shall reduce quarterly groundwater monitoring requirements to semiannual or less frequent monitoring at all site unless site-specific needs warrant otherwise and shall notify all responsible parties of the new requirements no later than August 1, 2009. If more than semiannual monitoring is required for a case, the responsible party and State Water Board shall be notified of the rationale and the notice shall be posted on Geotracker.*"

In correspondence dated June 24, 2009, Alameda County Environmental Health (ACEH) requested that monitoring wells at your site be decommissioned. No future groundwater monitoring is anticipated for your site. Therefore, no actions are required to comply with the groundwater monitoring requirements in Resolution No. 2009-0042.

If you have any questions, please call me at 510-567-6791 or send me an electronic mail message at [jerry.wickham@acgov.org](mailto:jerry.wickham@acgov.org).

Sincerely,

Jerry Wickham, California PG 3766, CEG 1177, and CHG 297  
Senior Hazardous Materials Specialist
