Subject: RE: Four City of Emeryville Cases

Mike,

I wanted to followup on these four sites (see below) in Emeryville that ACEH recently issued letters for, you were copied on, and for which we are trying to see if we can move them closer to closure. The letters requested a meeting with the City and other responsible parties to discuss them and help expedite the process; however, we have not heard back by the date mentioned in the letters (January 17th). I've also not heard from Markus Niebanck who was copied on the letters as the former point of contact for the city on these sites. Is there a team or a point of contact for the City that can discuss them and move the sites forward?

Thanks; your help is appreciated.

Mark-

Thank you for reaching out. I think it's important that I receive these since I'm an actual employee of the City and Markus is a consultant but I have no issues with him receiving them too. I will also check to see if the City Attorney is in the loop on this work.

Mike

Subject: Four City of Emeryville Cases

Mike,

I wanted to followup on three LOP (Local Oversight Program) cases and one SCP (Site Cleanup Program) case that ACEH has with the City of Emeryville. We recently issued letters on these cases in an effort to restart movement towards closure under the state's new Low-Threat Closure Policy (LTCP), and were in part requesting a meeting in order to discuss the sites. I recalled mid process that you had wanted to be notified (at least for potential case closures) and that closure notifications should be addressed to you rather than Markus Niebanck. I am unsure if you should be notified in addition to (or rather than?) Markus with these sites as well, but did not want them to sit if additional distribution of the letters would be useful. Consequently, I am forwarding copies of the letters in case you should be.

The cases are as follows:

RO61 City of Emeryville Fire Station #2
RO68 City of Emeryville Fire Station
RO267 City of Emeryville Marina
RO2615 Emeryville Village Center

It would be helpful if you could clarify if you should or want to be included in communications regarding these four sites. Thanks in advance,
