Erik,

I concur with expanding the excavation. Following expansion of the excavation, please collect confirmation soil samples from the expanded sidewall at the depth where the highest PID readings, odor, or visual contamination were observed during excavation.

Please let me know your schedule for excavation and confirmation sampling as I plan to visit the site.

Regards,

Jerry Wickham

Jerry,

Attached is the figure of our present excavation with analytical results at the indicated location. We intend to expand a 5-foot slot on the northeast side of the present excavation.

Please let me know if you concur.

Thank you,

--Erik
