**Subject:** RE: 4800 Coliseum Way

Good morning,

We have reviewed this case and will contact the Regional Board for further information. I hope to have a response to you in the next couple of weeks. With the holiday season it may take a little longer than I would normally expect.

Thanks,

Dan

Thanks for discussing this with me and here is a forward of the e-mail regarding this site with some of the latest documents.

I look forward to discussing this with you further. Please contact me if you have any questions or if you require additional information.

Hi Mary Rose, thanks for discussing this with me. When I spoke with you on April 4, 2008, you suggested that I ask Jerry for a "site review meeting" and you would attend so that you could also hear their side of the story.

Anyway, I will take your advice and discuss this with Dan Firth as well.

I have included 1) the text of my presentation at the last meeting on March 6, 2008, 2) a summary letter

after the meeting and 3) the most recent letter from Alameda County. I also included the first letter, dated September 26, 2007 I received after this issue came to my attention.

The document of the entire presentation for the meeting is over 40 MB because it contains photographs of ponds of oil at the up-gradient site, maps showing the groundwater flow direction and maps showing soil and groundwater data.

Thanks for taking a quick look at this and please contact me if you have any questions.

Best regards, Dave
