Dear Mr. Reeves:

This letter confirms the completion of site investigation and remedial action for soil and groundwater contaminated with petroleum hydrocarbons at two parcels situated on the southwest corner of the intersection of Edes Ave and 98th Ave.

After review of Gettler-Ryan's October 1997 Well Installation and Soil Boring Report for the above referenced site, and with the provision that the information provided to this agency was accurate and representative of site conditions, no further action related to the petroleum hydrocarbon contamination is required.

If you have any further questions concerning this matter, please contact me at (510) 567-6762.

Sincerely,

eva chu
Hazardous Materials Specialist
