**Re: Soil contamination along the residential property line
between 1150 and 1160 Bennett Court, Fremont, CA 94536**

Dear Mr. Mitchell:

Alameda County Environmental Health Department (ACEHD) has received and reviewed the Soil Excavation Report, dated April 4, 1996, prepared by your consultant. This report documents the excavation of 1.2 cubic yards of soil from the fence line separating 1150 and 1160 Bennett Court. Confirmation samples taken from four locations indicated non-detectable levels of petroleum compounds. Soil profiling and disposal records indicate appropriate soil disposal.

At this time no further work will be required by ACEHD at the above referenced properties regarding contamination along the common fence line. Please be advised that this letter does not relieve you of any liability under the California Health and Safety Code or Water Code for past, present or future operations at this site. Nor does it relieve you of the responsibility to clean up existing, additional or previously unidentified conditions at the site which causes or threatens to cause pollution, nuisance or otherwise pose a threat to water quality or public health.

You may contact me at (510) 567-6707 should you have any questions concerning this matter.

Sincerely,

Paul M. Smith
Senior Hazardous Materials Specialist
