# COVENANT AND ENVIRONMENTAL RESTRICTION ON PROPERTY

Oak Walk Condominiums

at 1122 40th Street, 1087, 1089, 1091, 1093, 1095, and 1097 41st Street, and 1099, 4000, 4002, 4008, 4010 and 4098 San Pablo Avenue, Emeryville California.

This Covenant and Environmental Restriction on Property (this "Covenant") is made as of the \_\_\_\_\_ day of \_\_\_\_\_\_, 20\_\_ by Bay Rock Oaks, LLC who is the Owner of record of that certain property situated at 1122 40th Street, 1087, 1089, 1091, 1093, 1095, 1097 and 1099, 4000, 4002, 4008, 4010 and 4098 San Pablo Avenue in the City of Emeryville, County of Alameda, State of California, which is more particularly described in Exhibit A attached hereto and incorporated herein by this reference (such portion hereinafter referred to as the "Burdened Property"), for the benefit of the Alameda County Environmental Health Services (the "County"), with reference to the following facts:

- A. The Burdened Property and groundwater underlying the property contains hazardous materials.
- B. <u>Contamination of the Burdened Property</u>. Soil and groundwater at the Burdened Property was contaminated by historical paint manufacturing activities conducted at 1007 41<sup>st</sup> Street Emeryville, California and at 1001 42nd Street, Oakland, California, by operation of a historical automobile service station that had the address 4000 San Pablo Avenue, Emeryville, California. None of the forgoing sites was on the Burdened Property. Soil and groundwater at the Burdened Property was also contaminated by use of underground storage tanks that were located on a portion of the property that had the address 4070 San Pablo Avenue, Emeryville California. Those operations resulted in contamination of soil and groundwater with organic chemicals including Mineral Spirits and other industrial solvents, gasoline, Diesel fuel and motor oil, which constitute hazardous materials as that term is defined in Health & Safety Code Section 25260. The potential emission of organic vapors into building on the Burdened Property was eliminated

by placement of a gas tight membrane which does not break down in the presence of petroleum hydrocarbons beneath a 6 in. thick reinforced concrete slab in the space below the ground floor of the building. The potential emission of organic vapors into air from the soil on the Burdened Property has been substantially lessened be re-engineering the natural soil to a minimum depth of three feet and covering substantially all of the outdoor area with paving so as to reduce its vertical hydraulic conductivity to less than  $1.0 \times 10^{-7}$  cm/sec.

- C. <u>Exposure Pathways</u>. The contaminants addressed in this Covenant are present in soil and groundwater on the Burdened Property. Without the mitigation measures which have been performed on the Burdened Property, exposure to these contaminants could take place via inhalation of vapors by humans. The risk of public exposure to the contaminants has been substantially lessened by the remediation and controls described herein.
- D. <u>Adjacent Land Uses and Population Potentially Affected</u>. The Burdened Property is used as a mixed use residential and commercial condominium development and is adjacent to residences and public streets.
- E. Full and voluntary disclosure to the County of the presence of hazardous materials on the Burdened Property has been made and extensive sampling of the Burdened Property has been conducted.
- F. Covenantor desires and intends that in order to benefit the County, and to protect the present and future public health and safety, the Burdened Property shall be used in such a manner as to avoid potential harm to persons or property that may result from hazardous materials that may have been deposited on portions of the Burdened Property.

### ARTICLE I GENERAL PROVISIONS

- 1.1 Provisions to Run with the Land. This Covenant sets forth protective provisions, covenants, conditions and restrictions (collectively referred to as "Restrictions") upon and subject to which the Burdened Property and every portion thereof shall be improved, held, used, occupied, leased, sold, hypothecated, encumbered, and/or conveyed. The restrictions set forth in Article III are reasonably necessary to protect present and future human health and safety or the environment as a result of the presence on the land of hazardous materials. Each and all of the Restrictions shall run with the land, and pass with each and every portion of the Burdened Property, and shall apply to, inure to the benefit of, and bind the respective successors in interest thereof, for the benefit of the County and all Owners and Occupants. - 1.3 <u>Incorporation into Deeds and Leases</u>. Covenantor desires and covenants that the Restrictions set out herein shall be incorporated in and attached to each and all deeds and leases of any portion of the Burdened Property. Recordation of this Covenant shall be deemed binding on all successors, assigns, and lessees, regardless of whether a copy of this Covenant and Agreement has been attached to or incorporated into any given deed or lease.
- 1.4 <u>Purpose</u>. It is the purpose of this instrument to convey to the County real property rights, which will run with the land, to facilitate the remediation of past environmental contamination and to protect human health and the environment by reducing the risk of exposure to residual hazardous materials.
