RO-2736
510-881-8574
requested call back

he called again on 8/31 at 9AM

9/2/04 I returned his phone call (he spoke with Ariu yesterday)
tank pull - no impact to soil, geo recommended NFA
but LFR found impact to gw

LFR investigation was incomplete - boring logs? impacted zone? appropriate depth sampling? vertical definition in source area? 1,2-DCA definition?
