Mark:

This has totally fallen off our radar, for which we apologize. We will cut the cost deposit checks right away and send them and will also get the additional info and uploads done as quickly as possible.

Mr. Sears,

I wanted to follow up on requested information and uploads to Geotracker for two environmental cases that was requested of you in August 2014, for which a response has not been received or work undertaken since then. I must also followup on requests for funds for both sites to cover the costs associated with the work requested at that time (review of acceptability of deed restriction modifications and generation of modified deed restrictions), as a check for either has not been received. The sites are not in the UST program so costs associated with the case work must be sought directly from identified responsible parties.

Should you have questions, please let me know.

Thanks,

Mark Detterman
