Fred,

I've had a chance to review them and in general they look fine. I had some pretty minor formatting changes, but that was about it.

I've also had a chance to review the SMP and had a few thoughts and comments, but I will need to talk with our Supervisor, Dilan Roe about how to proceed with our next steps first. That will likely take some time as she has been tasked with managing another program and is definitely behind in our program. I don't have a good handle on when she will have time to discuss the site, and she has the final signature authority for closures, so need to get her thoughts incorporated. She had thought this month looked better, but so far that break hasn't occurred.

It would be good to get these off the books and off of everyone's plate. Dealing with older cases has been a long term goal for Dilan.

I'll keep you posted, but if you have a question or update, let me know.
