

7/28/99

Meeting (7:30 AM - 9 PM) with
Kari A. Gordon Taylor (CBS), Mansour Sepher

discussed:

- 1) Status of tank removed 1988 - provided documentation
rec'd fr. Mansour
- 2) Status of deed restriction - recorded?
if not recorded need to use RWQCBS format
- gave a copy to Gordon
- prior to building occupancy, deed restriction should
be recorded. (Parcel 184)
- 3) Hot spot removal/ more sampling in the
Heritage Square Area (136 ppm PCBs
found in shallow soil.)
need to delineate extent. Hot spot removal
deed restriction maybe a problem since
the property is not owned by CBS but by
Heritage Square. Urban Developers

7/30/99

- Talked to Mansour -
definition of PCBs off-site, along Heritage Square
& Post Office, hot spot removal
- since deed restriction might be a problem
more sampling & removal needs to be done.
 - use residential clean-up goals
 - check with Ignacio, Sujin re: PCB results
across the site
 - DMR should reflect recent changes at the site
