Subject: RE: 1601 Webster St, Alameda (ACEH #RO2745, Shell SAP #135032) - requesting suspension of groundwater monitoring ~COR-240467~

Dear Mr. Katz,

As Alameda County Environmental Health (ACEH) indicated in our meeting of December 19, 2013 regarding the subject site, ACEH approves suspension of the recovery and analysis of groundwater samples for the site's monitoring wells. However, ACEH requests that you continue to monitor the depth to water (DTW) for your well network. Depth to water measurements should be coordinated with the sampling events at the nearby former 76 Station (now a Chevron site) located at 1629 Webster St., ACEH case file number RO000450. Please provide the DTW data to Chevron for use in their construction of a groundwater contour map for the shallow water bearing zone. Please continue to upload the GEO_WELL data to Geotracker.

Thank you for your cooperation. ACEH looks forward to working with you and your consultants to advance the case toward closure. Should you have any questions regarding this correspondence or your case, please call me at (510) 567-6764 or send an electronic mail message at keith.nowell@acgov.org.

Respectfully,

Keith Nowell

Subject: 1601 Webster St, Alameda (ACEH #RO2745, Shell SAP #135032) - requesting suspension of groundwater monitoring ~COR-240467~

Keith,

Based on our discussion in the December 19, 2013 meeting at Alameda County Environmental Health, I would like to formally request suspension of groundwater monitoring at the subject site. Thank you.

Regards,

Peter Schaefer
