Dear Mr. Nowell:

Re: Well Protection Plan for:
Shell-branded Service Station
1601 Webster Street
Alameda, California
SAP Code 135032
Incident No. 97564701
Agency No. RO0002745

Conestoga-Rovers & Associates prepared this plan on behalf of Equilon Enterprises LLC dba Shell Oil Products US as requested in Alameda County Environmental Health's April 23, 2014 electronic correspondence.

All site wells are in flush-mounted traffic-rated boxes, which will protect them during routine construction work. One well (S-5) is located in close proximity to the planned underground storage tank (UST) excavation. Well S-5 will be separated from the excavation by sheet pile shoring, a delineator will be placed over the well box, and site personnel will be instructed not to drive over the well box with heavy equipment. The tank backfill wells will be destroyed during the UST removal.

Please call Peter Schaefer at (510) 420-3319 if you have any questions or comments.

Yours truly,
CONESTOGA-ROVERS & ASSOCIATES

Peter Schaefer
