

Meeting with Nick Poyarko, his son, Ed Howell and
I on 9-18-86.

- ① Underground pipe leading to pit need to be
taken out as topsoil needs
- ② more than 1000 lbs. of soil will be
needed
- ③ pit of water dig up 10' around pit or better
concrete - should be at least 10' wide
a ^{large} hole
- ④ Submit to as a job of construction
- ⑤ He would probably contact Titi for completion
of the job
- ⑥ ~~He would not want well water connected
to his electrical system as it would be a good
idea.~~
