

Meeting with Ester Fellman on 10/27/87

Mitigation joblet is not great. No ~~threat~~ ^{threat} to water quality
P-2-P is water insol.

Discussed with RWQCB staff. Advise. Discussion with them
concluded that ^{the} threat to water quality is minimal
given the leach and investigation of soil borings. ^{for} ^{Esther} ^{Fellman}
~~Mitigation wells to be installed~~

Show draft letter to Fellman before sending to Deputy

My subsequent

No threat to water quality. After reviewing with RWQCB,
they are back logged, case would be low priority,
after discussion my policy is monitoring wells will not be
necessary, and that RWQCB will probably come to the
same conclusion.
