Re: Tract 6078 - Soil Sampling Clearance

Dear Ravi:

Confirming our telephone conversation of today at 1:45 p.m. you have approved unrestricted development of the thirteen lot Tract 6078 in Hayward, as noted in the attached drawings. As discussed, we have not yet completed the test results on Tract 6260, the additional nine lots, which you requested on December 15, 1992, but we expect to have a sampling procedure in your hands for approval for Tract 6220 within the next week.

Thank you again for your continued cooperation on this project, and we will continue to try to meet all of your requirements as quickly as possible.

Very truly yours,

THE PLYMOUTH GROUP

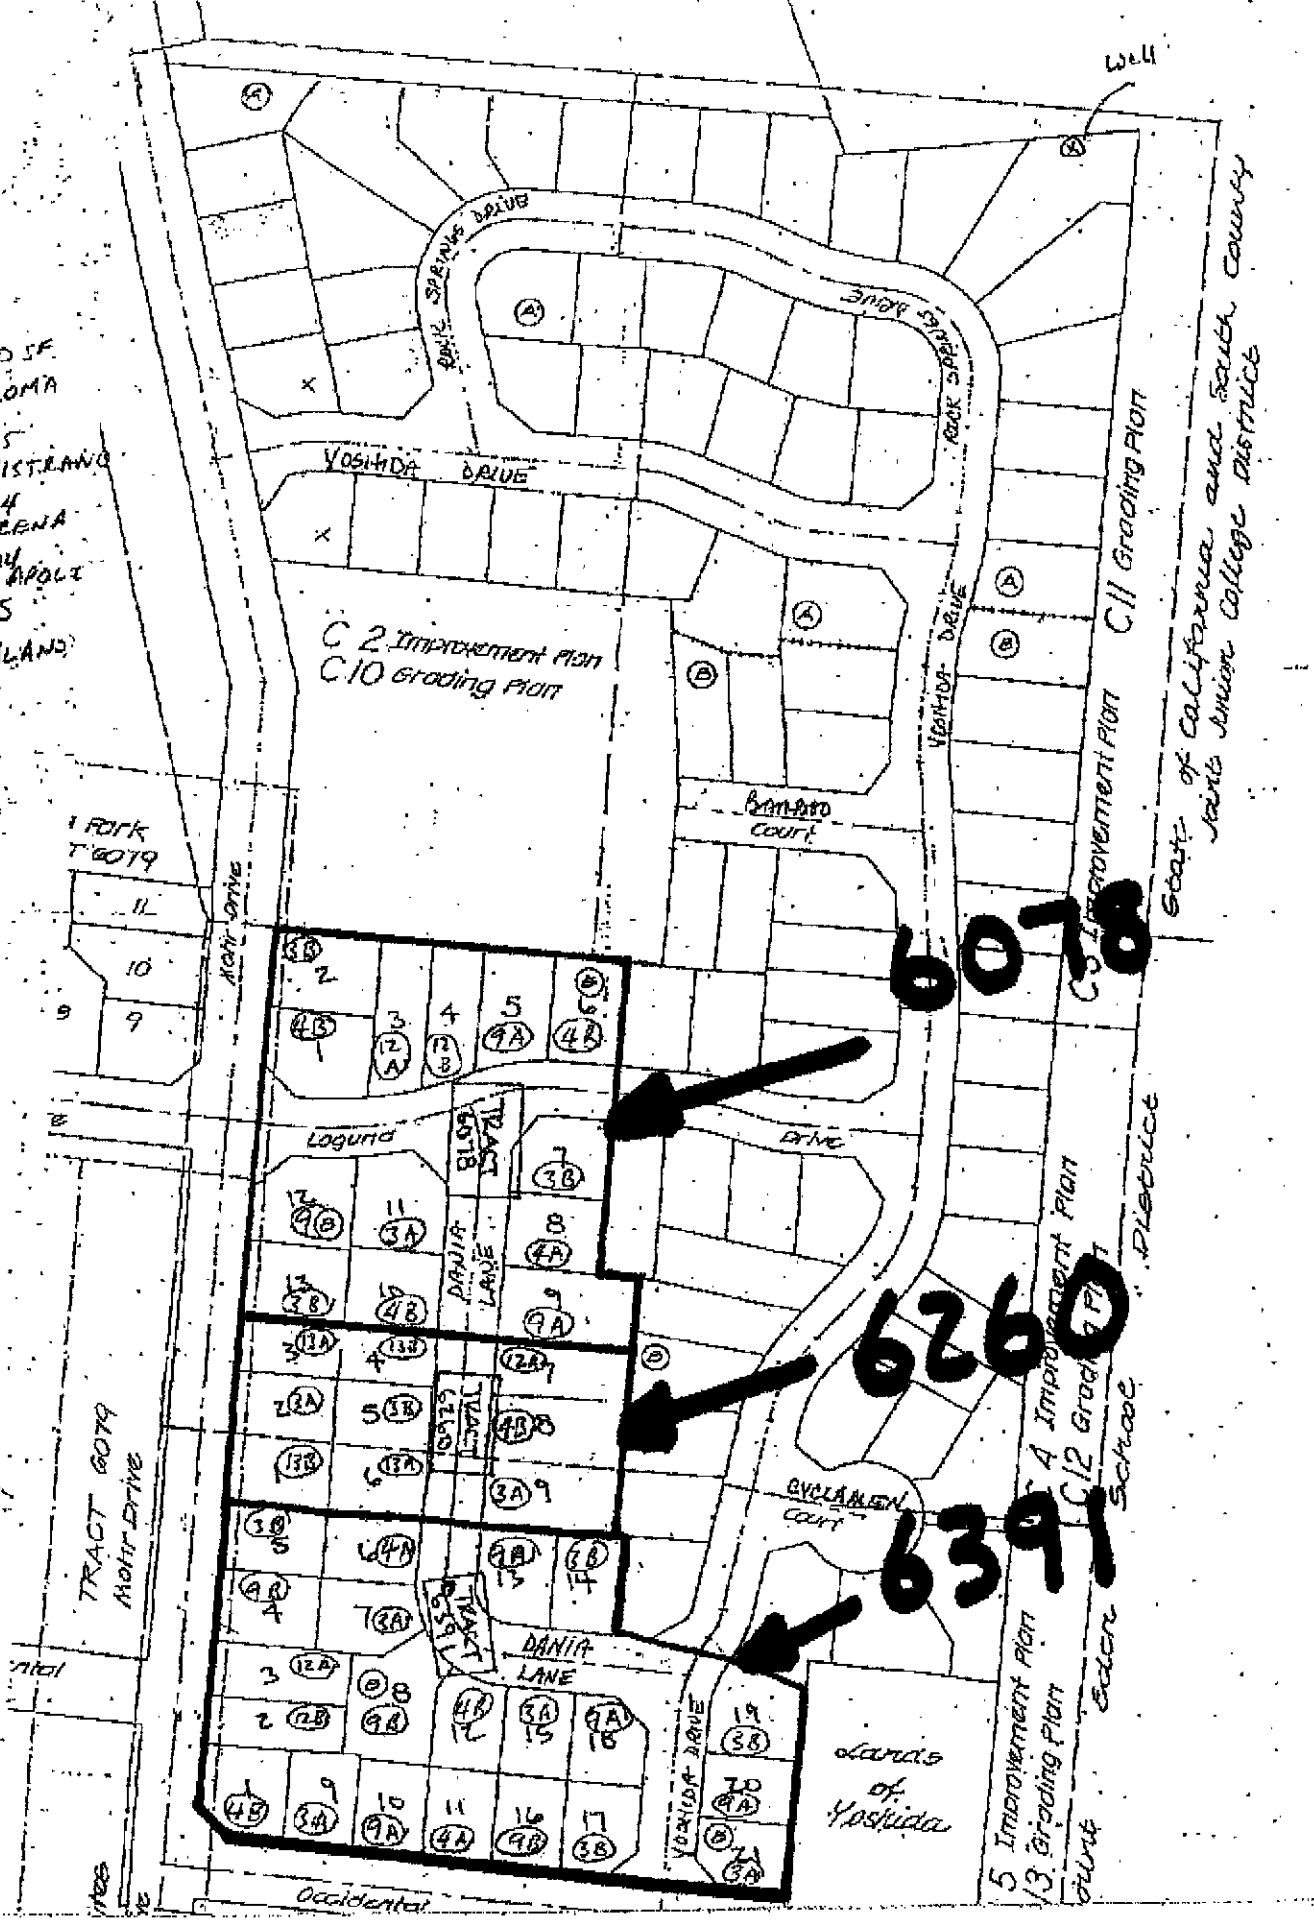

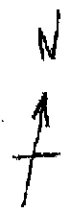

Curtis S. Peterson
