Subject: lab results - Western Forge, etc Albany

SUMMARY:

I called Mr Day to tell him that our lab results came back + the waste is considered hazardous due to the concentration of ~~lead~~ heavy metals.

I told him that the material in the dumpster is considered hazardous and must be disposed at a class I or II-1 site and hauled by a registered hauler.

I told him that I would send a letter to him in the next day or two describing how he must dispose of the waste.
