Environmental Health

September 11, 2008

Ms. Barbara Jakub
Alameda County Environmental Health Care Services Agency
Department of Environmental Health – Local Oversight Program
1131 Harbor Bay Parkway, Suite 250
Alameda, California 94502

Subject: Notice of Intent to Perform Subterranean Work
Bay Center Offices - 6475 Christie Avenue, Emeryville, CA RO#2799

Dear Ms. Jakub:

This letter is to notify your agency of intended subterranean work, beginning on September 19, 2008 and extending to October 16, 2008, as required by the subject property deed restriction. Work will be performed in accordance with the Health and Safety Plan (HASP) being completed by EKI, the tenant environmental consultant. Novartis Pharmaceuticals, the tenant, will submit the HASP to Stellar Environmental Solutions, who will in turn forward the HASP to Alameda County Department of Environmental Health prior to the project initiation.

The nature of this work is to install a new glass washer as part of a technical services upgrade project. To complete the necessary sub-grade piping, a cut will be made into the building slab, and an excavation measuring approximately 100 linear feet in length, 2 feet to 6 feet in width, and to a maximum depth of 3 feet will be made into the ground surface. Following the completion of the work, the slab will be repaired. Please call me at 510-644-3123 x 16 if you have any questions about the proposed work.

Sincerely,

Richard Makdisi, R.G., R.E.A.
Stellar Environmental Solutions, Inc.
