Subject: Fuel Leak Case No. RO0002855 and Geotracker Global ID T0600115417, Shell #13-5693, 3600 Park Blvd., Oakland, CA 94610

Dear Mr. Brown:

Alameda County Environmental Health (ACEH) staff has reviewed the fuel leak case file for the above-referenced site and the recently submitted report entitled, "*Risk Evaluation and Request for Closure*," dated August 1, 2008. The report, which was prepared on Shell's behalf by Conestoga-Rovers & Associates, presents a screening level risk evaluation of the potential risk to receptors from the site and requests case closure. The case is currently under consideration for case closure by ACEH. During the review for possible case closure, quarterly groundwater monitoring may be suspended. Following completion of ACEH review and California Regional Water Quality Control Board concurrence, the case will be closed or ACEH will provide further directives for investigation or cleanup.

If you have any questions, please call me at (510) 567-6791 or send me an electronic mail message at jerry.wickham@acgov.org.

Sincerely,

Jerry Wickham, California PG 3766, CEG 1177, and CHG 297
