Bob,
Thank you for the work notice.

One item that did not get included in the letter but could have I realize now, is the stated potential use of recycled concrete as backfill beneath the site. I know you are aware of ACEH policy for characterization of recycled concrete due to the potential to introduce new contaminants that have absorbed into the concrete at other sites and source areas. As always, let me know if you have questions.

Mark,

Thank you for the fast review and approval of our workplan. We will perform the tasks required by your conditional approval letter.

Here is our notice of intent to proceed. Preparation for the interim remediation effort commenced today. The excavation contractor will commence excavation after completion of the preparation work, which includes removal of some piping and backfill to access under the adjacent restrooms. Please call me with any questions or comments.
