01/24/05, 220p, disc site with Don Ashton, Clayton, will list site, request submittal of Phase1 report, UST removal info & any other environmental reports, he will disc with client & get approval to send. Told him reports will be requested in first ltr, more complete review if we receive now.

Is safeway looking for closure of whole site or just petroleum issue? Expecting regulatory review of all site uses? He feels PHC is only issue but ultimately Safeway would like cl of entire site.

Site will be listed next week & assigned to CW
