Hello Dilan,

We spoke earlier today regarding the subject property and the closure recommendation made in the 1st Quarter 2012 Groundwater Monitoring Report (1Q12 QMR), submitted to your office last quarter. I had thought that my conversations with Paresh Khatri were via e-mail; however, when I returned to the office tonight, I discovered that they were via telephone. In our 1Q12 QMR Stratus discusses the conversations with Paresh and the understanding that after we conducted the RegenOx™ injections, we were to conduct two post-injection groundwater sampling events and then the site would be considered for No Further Action by Alameda County EHD.

Anything that you can do to help move this report review along any faster is greatly appreciated.

Sincerely,

Kasey L. Jones
