Thank you for the information, Steven.

As a note, I received word from Mr. Wong today that neither he nor anyone with the Montessori Plus School will be available to make our Thursday meeting. DTSC intended to visit the school site after our meeting and still plans to. I have asked Mr. Wong whether DTSC can meet with someone at the school briefly at that time.

Bud,

ACEH has recommended the parents be notified, but it is unknown if they have been notified yet. I do not believe the City of Dublin has been notified, although I do not know for certain. I have previously requested a groundwater supply/production well search from Zone 7 with a 1 mile radius. I have not received results from the well search.

Attached you will find a document which informs ACEH of changes to the HVAC.

Good morning, Steven.

A few questions... Do you know whether the parents of the students at the Montessori Plus School have been notified of the investigation? Also, has the City of Dublin been contacted? It appears that the nearest municipal supply well is located approximately 2-1/2 miles southeast of the site. Is that correct?

Thanks!

Bud
