Yes; it is my understanding that he will review the County' website and upload any missing documents (same with Geotracker). He will require a signed perjury statement from the Responsible Party (RP) prior to that task, in line with County requirements as outlined in Attachment 1 of our letters. Sounds like he has information that we're not yet aware of, so it may help move the site along in some manner, but I guess we'll have to wait to see.
