Duration: 12 minutes

I Received a call from Robert (Planner with the City of Oakland) regarding the status of the subject site. To clarify, I asked if this is the site where the USTs are in the street. Robert confirmed and asked whether the City could be liable for the USTs in the street. I explained that the City could be liable, but its complicated scenario. However, our intent is to work with the RP in assessing the site. I informed Robert that I have not been contacted by the RP since I sent a letter on April 24, 2008. I also told Robert that I have been contacted by the consultant for the site who informed me that the RP may not comply and that his firm had not been fully compensated for previous work.

Robert asked whether we intended to refer the case to the DA's Office. I told Robert that if the RP remains recalcitrant that we typically issue a Notice of Violation as the next step, since the site is not in compliance. If several attempts made to gain the RPs cooperation fail, the site may be referred to the DA's office for possible enforcement action.

Robert wanted to know if a plan had been submitted. I told Robert that we are awaiting action from the RP.
