Duration: 35 minutes

Glenn Roberts calls about the Geotracker compliance letter. Oakland placed Mac Arthur Blvd. over the USTs. Glenn says Oakland knew the USTs were there when they placed the road over the USTs. Glenn handled the Ruth Robert's Trust. The building was knocked down in approx. 2000. The gas station was a Signal Oil station. The name changed at one point but Glenn's grandfather owned the land when the USTs were installed.

I send him the link to our files and say that there could be possible enforcement if the site isn't claimed but I also tell him that there is a clean up fund that may reimburse him for work that needs to be performed.
