RE: Extension request for reporting the additional Site Characterization and Interim Remedial Action

Site: Springtown Gas, 909 Bluebell Drive, Livermore, California
Project Number: 1409.2

Dear Mr. Wickham,

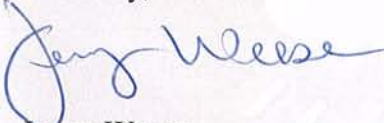

Additional Site Characterization and Interim Remedial Action prepared by Geological Technics Inc. (GTI) dated February 13, 2009 was approved by Alameda County Environmental Health Services (ACEHS) subject to the comments in their correspondence dated March 13, 2009.

The current deadline for submission of the report was June 30, 2010. Additional data is currently being reviewed and analyzed and having the additional time would allow for a more complete report. Therefore, we would like to request an additional 30-day extension which would change the due date to July 30, 2010.

Please confirm in writing your approval / disapproval.

If you have any questions please call me at 209-522-4119.

Sincerely,

Jenny Weese
Chief of Operations
