Jerry,

I hope all is well. Due to the fire experienced by the development of this site back in June we are under local pressure to get closure for the site (in as much as there are several phases to get there). I know that some agencies have an expedited process whereby we pay a premium to move projects to the head of the line. I do not know if Alameda County has such a program, we would be interested in that, but if not, if you could possibly give me a timeframe in which you would be able to consider this site for closure, I would really appreciate it. Thank you.

Mark
