**Subject:** Follow-up - SLIC Case Number 2903 Alameda Federal Center

Hello.

As a follow-up to our last conversation, you mentioned that you'd speak with the contractor involved with our request for closure, Jonas and Associates, to discuss the submittal of an additional report. This was, I believe, to help in the preparatory effort to submit it to your Supervisor for approval. Were you able to follow-up with Mr. Maleab of Jonas and Associates? This will be an additional expense on top of the \$6,000 that was submitted to the Alameda DEH for review, correct?

If there are forms or a list of required elements you'd need in the report, could you forward that to me so that I may discuss it with Jonas and Associates?

If you anticipate a review to be completed in the near future, could you forward that information as well?

Thank you very much.
