Divest property, have old fuel oil UST closure form us in 08/2003
Then removed hydraulic lift, want to settle out environmental issues, this was never followed up at time of removal.
She will send me complete report, from what I hae looks like it should be a case, ? Of what add'tl work necessary, will need more information from report to determine.
They are woking on clearing env issue so they can divest the property, will do add'tl work required.
