Jerry,

Thank you for your email. We have scheduled a meeting with the City for June 30, 2015, to discuss a path forward in regard to the soil sampling and the requested interim remedial action plan. We will provide you with an update following that meeting.

Please let me know if you have any questions.

Thank you,

Carryl MacLeod

Carryl,

The planned sampling effort provides information to the planning process and can be implemented independent from meetings with the City of Livermore. The scope of work is defined and is not contingent upon meeting with the City of Livermore. Therefore, we do not concur with delaying the sampling. The schedule for submittal of the results of the lead delineation sampling along with an Interim Remedial Action Plan remains August 13, 2015 as requested in our June 4, 2015 directive letter.

Regards,

Jerry,

Per our conversation, I am writing to provide you with the status of the work proposed for Mills Square Park in the Work Plan for Lead Delineation in Soil dated June 1, 2015 (Work Plan). The Work Plan noted that work would begin following "acceptance of conditions of work by the City." In an effort to implement the work promptly, CEMC simultaneously scheduled the soil sampling (to commence June 22, 2015) and attempted to reach agreement with the City on the conditions of this work. To date we have been unable to schedule a meeting with the City to discuss a path forward. We therefore have postponed the work, pending resolution of the outstanding issues with the City.

We will provide you with an update as soon as the work is re-scheduled.

Any questions, please let me know.

Thank you,

Carryl MacLeod
