Hi Charlotte,

I agree that only the deeper well is to be sampled.

Regards,  
Jerry Wickham

Hi Jerry,

I was reviewing the scope of work for the upcoming well installations and wanted to clarify one point. For the areas where we are installing shallow and deeper screened wells within 5 feet of each other, is it OK to only sample the soil from the deeper well? We will be sampling every 5 feet. In the latest version of the work plan you approved, CRA stated they would be sampling every well every 5 feet.

Enjoy your weekend. Thanks.
