Subject: RO 2908 (Livermore) Well Installations ~COR-312264-2012~
Attachments: 312264-13-FIG2.pdf

Hi Jerry,

I just wanted to let you know ahead of time, that we will not be able to advance the well proposed on the south side of Livermore Avenue [adjacent to the fountain (large circle)]. Based on a large number of utilities and utility boxes in the planter, it cannot be installed there. Additionally it cannot be install in the lane due to underground utilities, would cause traffic issues every time the well was sampled, and would also be quite hazardous to the safety of the samplers. We will be installing shallow wells adjacent to CPT1 and adjacent to SB-3, as requested in your December 14, 2011 letter. Well installation is scheduled for February 14-17.

Thank you,
Kiersten
