

## MEETING NOTES

CASE NO.: RO2908  
SITE NAME: Mills Square Park  
ADDRESS: 2259 First Street, Livermore  
DATE: August 3, 2011

PARTICIPANTS:  
Jerry Wickham, ACEH  
Eric Frohnapple, Chevron  
Brandon Wilken, CRA  
Kiersten Hoey, CRA

The following items were discussed during the meeting:

- Provided that data are valid and representative, vapor intrusion does not appear to be a concern for the site.
- There is some disagreement about whether dissolved phase contamination is present in deeper zone.
- City of Livermore opposed to placement of SVE system.
- Chevron to submit one Work Plan for downgradient assessment and sulfate injection in the source area.
- Downgradient assessment will be limited to the two proposed monitoring well locations.
- Chevron will involve their technical team in design of sulfate injection in source area. Chevron is willing to collect data to understand how injection is working and to evaluate whether injection of other chemicals may work.
- Chevron to work with City of Livermore to get them to allow access. Jerry Wickham will provide support if necessary.
- Date for submittal of Work Plan is September 25, 2011.
