Subject: RE: 3701 MLK info on USTs

I have that already from Keith. I don't have enough info from the UST file to ID the RPs though. So all the items regarding UST ownership & operation would be helpful. Thanks!

I have the file, it does not look like the tanks were removed. There was enforcement action taken against the site in 2000 but our files don't have any documents indicating closure. Do you want me to complete a case transfer request?

Hi Leroy & Keith,

I am listing the LOP site at 3701 MLK. Can you send over information from your files regarding the USTs at the site. From the Phase one it appears ACEH had records on the USTs, ownership, location, inspection, etc.

It appears it was a J&H Auto repair facility however I have no information identifying the names & contact information for the UST owners/operators. I am trying to identify responsible parties for the site & this information will help.

Also, have the USTs been removed now?
