Carrie,

Case RO2912 has not been an active case. Whatever information is available for the site is on the ACEH website. We have no other case files.

Regards,
Jerry Wickham

Thanks, Dilan! I think the link on the GeoTracker site indirectly points to your contact information when it should be Jerry's.

Hi Jerry,
Just in case, you can't see my previous email to Dilan, please see below:

I checked the ACDEH's LOP website for records on the open SLIC case , RO0002912, K&S Heavy Equipment at 495 Greenville Road in Livermore, and I only found soil sampling results dated 2004-2006, as well as some correspondence documents and photos. Do you know if any further investigations have been conducted at this site? If so, I would like to review these records. I'm conducting an Environmental Site Assessment for an adjacent property (510 Greenville Road) on behalf of AEI Consultants and am trying to determine if the release at this site might have the potential to impact the property I'm assessing.

Thanks in advance for your help!

Hi Mr. Roe,

I found your email address on the RWQCB's GeoTracker website, which lists you as the caseworker for the above site. I checked the ACDEH's LOP website for records, and I only found soil sampling results dated 2004-2006, as well as some correspondence documents and photos. Do you know if any further investigations have been conducted at this site? If so, I would like to review these records. I'm conducting an Environmental Site Assessment for an adjacent property (510 Greenville Road) on behalf of AEI Consultants and am trying to determine if the release at this site might have the potential to impact the property I'm assessing.

If you're not the correct person to contact, please let me know. I look forward to hearing from you,

Carrie Locke
