Hello Paresh,

We have been authorized to proceed with groundwater monitoring at the site and preparation of a corrective action plan. We anticipate the GW monitoring report will be complete the first week in September and the CAP should be completed in late September. As part of this work, we will also set up a Geotracker account and upload documents.

Along those lines, I have an excerpt form a 2008 GW monitoring report prepared by ATC. This document is not on the ACEH website. Do you have a hard copy?

Look forward to working with you.

Thank you,

Shawn Munger, CHG, PG, REAI, EM
Principal
