Thanks Dilan.

I look forward to speaking with you after you have had a chance to talk to Donna re. LUFT vs. SLIC.

Ravi

Ravi:

On Friday afternoon I received an email from Morgan that the revised work plan had been uploaded to the ACEH ftp site. However, as I am not able to access uploaded documents until they have been verified and processed, I sent an email to Morgan on Friday requesting him to email me a copy of the work plan. My intent was to find some time to at least give the document a preliminary read over the weekend as a courtesy to you. As the document was not sent until Sunday evening, I have not as yet read the document and so do not have comments to forward.

I will try to find time to look at the document this week however my schedule is quite full with other cases. I will commit to having comments on the work plan to you within two days of being notified that the funds for providing regulatory oversight have been deposited into your account.

Regards,

Dilan Roe, P.E.

Dilan,

I neglected to ask if your comments on the latest groundwater assessment you received last Friday were substantive or minor in nature.

I need to contact Engeo today and they will likely ask (so they can prepare to perform the field work if we are at that point).

I appreciate your efforts.

Ravi

Ravi:

I have contacted the Finance department to provide you with past invoices and backup. Please note that I am not allowed to work on the Jordan Ranch project until there are funds to cover Alameda County Environmental Health's oversight.

Regards,

Dilan Roe, P.E.

Good morning Dilan,

I received this email and attached letter yesterday regarding the account balance for the ACEH

oversight of Jordan Ranch.

Would you mind requesting full backup from the Finance Dept. for these costs?

I did not predict these costs and I have not budgeted for them. I can handle this on my end but full backup (for the costs incurred to-date) will assist with my accounts payable department due to the size of the amount requested.

You should be receiving a draft revised groundwater assessment work plan from Engeo today. I am hopeful it meets or exceeds your expectations.

Thank you,

Ravi
