Barbara,

I am wondering if the County is going to send out letters rescinding the notice of violation letter sent to the responsible parties on July 24, 2009 regarding this site and its Geotracker noncompliance, as the site has been claimed in Geotracker and the appropriate documents were uploaded (however are still pending). My clients investor apparently needs a letter indicating that this violation has been resolved. Is this something that the county might issue in the near future? Thanks for any assistance you can provide.
