Subject: Orphan Case B0038 - Thompson Property

Hi Judy! I'm responding with your inquiry regarding the Thompson Property Orphan Case B0038 (ACEH RO2933). I contacted the Mr. Joseph Cotton, environmental consultant for the case, for the case status. He confirmed the site is currently in post-remediation verification monitoring. A recently conducted groundwater monitoring event report will be provided to our office in the next few weeks. Mr. Cotton said he performed a limited soil and soil-gas verification monitoring event. This report also will be provided to our office in the next few weeks. He indicated he would be recommending targeted soil excavation. The data will need to be reviewed prior to our response.

Regards,

Keith Nowell
