Subject: RE: Alameda County Well Permit Approval Notification-W2014-1111 to W2014-1119

Mrs. Hall and Mr. Cotton,

The current drilling permits W2014-1111 to W2014-1119 has been place on HOLD today and no drilling work will be allowed. When ACEH authorize us to release these permits to conduct well destructions later, we will then take if off HOLD and you may reschedule the drilling work again.

James

Subject: RE: Alameda County Well Permit Approval Notification

Dear Ms. Hall and Mr. Cotton,

Alameda County Environmental Health (ACEH) is puzzled by the message in the email below as identified in the following Technical Comments:

TECHNICAL COMMENTS-

1. ACEH identified it would request the scheduling, as indicated in the attached Directive letter dated August 20, 2014, under separate cover. ACEH has not requested the scheduling of the well destruction;
2. The Public Comment period ends on **December 19, 2014**, and as indicated in the August 20, 2014 Directive letter, ACEH will issue a Directive letter authorizing the well destruction *only after* successful conclusion to public notification period; and
3. The List of Landowners form has not been completed and returned to ACEH.

Based on the message below, it appears that well decommissioning is scheduled for a date prior to the conclusion to public notification period and is being performed without the approval of ACEH, the lead oversight agency for the fuel leak case.

The wells should not be decommissioned without ACEH's expressed approval and requests the permits be revoked or rescheduled at after a date of the ACEH authorization letter.

Additionally, the List of Landowners form, provided as an attachment to Directive letters on August 20, 2014 and again on October 10, 2014, has not been received by this agency. To satisfy Section 25297.15 (a) of the California Health and Safety Code, List of Landowner form must be completed and return it to ACEH, for the closure process to proceed. Please complete List of Landowners form and return the form either by mail or by email, to ACEH (attention Keith Nowell) by the date specified below. The closure process cannot proceed without the completed form. A copy of the List of Landowners form is included with the attached Directive letter.

TECHNICAL REPORT REQUEST

Please submit reports to Alameda County Environmental Health (Attention: Keith Nowell), and upload technical reports to the ACEH ftp site (Attention: Keith Nowell), and to the State Water Resources Control Board's Geotracker website, in accordance with the following specified file naming convention and schedule:

- **December 3, 2014** – Return of *List of Landowner Form*

Thank you for your cooperation. Should you have any questions regarding this correspondence or your case, please call me at (510) 567-6764 or send an electronic mail message at keith.nowell@acgov.org.

Regards,
Keith Nowell

Steve,

I would like to schedule grout inspection for well decommissioning at 1409 12th Street in Oakland for November 24th and 25th and December 2nd, 3rd, and 4th. We should be ready to grout wells at 2:00 pm.

Thank You!

Joseph A. Cotton P.G.
