Spoke with you before

Joseph cotton is my representative

Pat pressler approved my grant to do cleanup

I understand you just gave the case to steven plunkett

My concern is their workin with a time factor, if not done in a timely fashion the money could run out & we'll be back to square 1

I have been fighting this since 1975, Im a widow now, husband passed away 3 yrs ago

Hard on me to continue to pay taxes & all this stuff on this property, dumping & cleaning off the property

Costing me an arm & a leg so to speak

& i think i have applied long enough anf Im wondering & why it is takin so long to get started on this everything is a standstill

I realize you told me that each CW is loaded with cases, but Im hoping someway, somehow and Im praying that Steven will get the ball rolling to get carrization money to get started so he can approve what joseph cotton is saying or get to what needs to be done inoreder to get this money, and the funding to get the job started

so could you please call maybe what you might say will give me a piece of mind. Im really concerned & worried about this when I talked to Pat pressler about this i was a candidate everyti=hing is okayed but out ALCo its kinda slow about thinsgs wondering if there is anything that can be done to expidite this situation so there wuill be funding to cleanup that property

Please be kind enough & I am hoping youi can call me today

Could you please give me a call Donna I woutld appreciateit so much it would really take of some of my concerns & take away a little bit of my worry because this has been a long time paying since 1975 theres absolutly there is notingh that can be done with this piece of land, until it is vcleaned uo. I don't know I jest want it rectified
