Received voice mail from Judy Reid re 1409-1417 12th St, Orphan case# B0038. The case is the Thompson Property-RO2933. She indicated the site is an Orphan site and wanted to know the status of the case. I returned her call and left a voice mail.

Ms. Reid returned my call at 3:50 pm. I told what I knew of the site after a brief review. I was confused with the concentration trends, recent GWM event recommendations, and the remedial system restart. I said I would need to delve into the matter. She said she had no firm deadline for my response but wanted to get in synch with site status and activities. I said I'd get back to her within 2 weeks.

Ms. Reid indicated she would contact the consultant and would cc me on the email.
